  - Libre Office

### Education Background

- Cavite State University Main Campus  
*Bachelor of Science in Computer Science*  
2019 – Present "Graduation Date: April 18 2024"

### About Me

Greetings! I'm Ian, a web developer from the Philippines and a recent graduate of Cavite State University Main Campus with a degree in Computer Science. My expertise lies in web development, with a focus on creating captivating and user-friendly interfaces. Proficient in front-end development, I excel at bringing design concepts to life with interactive web experiences. While I continue to enhance my skills in back-end development, I'm already at an intermediate level, eager to delve deeper into server-side technologies.

### Professional Experience

#### Highly Succeed Inc. | Intern as Database Programmer

*August 2022 – October 2022*

Key responsibilities:

- Assist with Database Maintenance
- Basic Query Writing
- Contributed to creating and updating documentation related to database configurations, procedures, and troubleshooting steps.
- Database Backups: participated in database backup procedures and data recovery processes.
- Data Entry and Verification: Input and validate data in the database to ensure accuracy and integrity.

#### Platinum Cable and Internet Services | Work Immersion Requirement for Senior Highschool

*November 2018 – January 2019*

Key responsibilities:

- Network Cabling: Install and manage network cabling within customer homes or businesses to establish connections.
- Service Activation: Activate and test internet service to ensure it's working correctly and meets the specified service levels.
- Equipment Troubleshooting: Diagnose and troubleshoot equipment issues, such as connectivity problems, signal loss, or hardware malfunctions
- Service Upgrades: Assist customers in upgrading their internet service plans and equipment when necessary
- Documentation: Maintain accurate records of installations, service calls, and equipment inventory.
